JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

During the month of December 22 houses in Lima and the neighborhood were fumigated for plague or the finding of dead rodents and 16 for smallpox. At the close of the month there were 19 cases in the smallpox hospital.

Bills of health from Chile have recently all been "clean," with the exception of that from Arica, which reports plague in the neighborhood.

PHILIPPINE ISLANDS.
